Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 7-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The term "much less than saturation in the steel wires" in claim 7 is indefinite: It is not known how much is meant by "much less."

Claim 12 is allowed.

Applicants' arguments filed 11-24-2006 concerning the rejection under 35 U.S.C. 112, second paragraph have been fully considered but they are not persuasive. Applicants argue that one of ordinary skill in the art would have no difficulty in understanding the expression "much less than saturation in the steel wires," and this expression particularly points the subject matter which applicants regard as the invention. The Examiner disagrees. Applicants' disclosure contains no data, explanation, evidence, etc. concerning the limitation "much less than saturation in the steel wires" in order to teach or define the metes and bounds of the invention. The above statements of the Applicant are conclusory assertions; and conclusory assertions of the Applicants or Attorneys cannot replace evidence. In short, the limitation "much less than saturation in the steel wires" is vague and indefinite; and therefore, the

Art Unit: 2862

Applicants fail to particularly point out and distinctly claim the subject matter which applicants regard as the invention (emphasis added).

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
